

Serving Seniors

Support to help serve the needs of elderly residents is provided by MGP in various ways. Among these is the contribution of funds to assist programs such as Project Concern, which offers a variety of services to senior citizens, including transportation and a centralized location for social gatherings, lunches, seminars and entertainment. A number of MGP employees generously volunteer time preparing and delivering meals to homebound seniors through the local “Meals on Wheels” and “Loaves and Fishes” programs. Similarly, the Company and employees contribute to programs and events hosted by nursing homes and assisted living facilities as a means of bringing variety into the daily lives of residents, as well as showing appreciation for their contributions to younger generations.
